

## COOPERS BREWERY

To whom it may concern,

9/2/2016

I am hereby writing this reference in regards to the association I have had recently with Adlington's Australia PTY LTD.

The works that were carried out here at Coopers Brewery were nothing short of outstanding.

From senior management through to the trades doing the installation were very professional in their approach, meticulous in their work ethics and stopped at nothing to please us, their customer.

The works completed were done well in time and were successful directly from commissioning.

They worked in a safe manner respecting Cooper's standards and were always there when we required any discussion leading up to the project.

In conclusion, I highly recommend Adlingtons Australia PTY LTD for any company requiring their services.

Kind regards  
Terry Santucci  
Maintenance Team Leader – Process Dept.
